

EXTRACT104

PC/104 Extraction Tool

Features

- Rugged nickle-plated steel
- Quick and efficient separation of PC/104 and PC/104+ boards
- Ideal for development applications and production use
- Separates PC/104 modules from Single Board Computers

Description

Frustrated with bent or damaged header pins? The EXTRACT-104 is an economical and easy to use tool designed to quickly and professionally separate PC/104 and PC/104+ modules from your stack or test equipment. Simply position the tool at the edge of the connector and squeeze; the PC/104 pins are smoothly lifted out of the adjacent PC/104 socket. This rugged, nickle-plated steel device is an indispensable piece of equipment for all test, repair, and production benches.
